

What is the study of symbols called?

What is the study of symbols called?

- a) Vexillology
- b) Numismatics
- c) Petrology

d) Semiotics

Semiotics is the study of symbols. Other name used for this study is semiology. In Semiotics we basically study signs and the behavior behind their usage. Signs are used to communicate something, and they have meaning for the interpreter. A person who studies symbols is called a symbologist.
